🎓 EDUCATION

R.V. College of Engineering,

2020 – 2024 | Bengaluru

B.E. in Computer Science Engineering

- CGPA: 9.37

💼 PROFESSIONAL EXPERIENCE

JPMorgan Chase, Software Engineer 1

07/2024 – Present

- Contributed to an automated workspace provisioning system using Payload CMS, Next.js, and AEM that enabled one-click creation of workspace for content authors via APIs and authoring workflows, improving scalability and reducing manual onboarding overhead each time.
- Led the development of custom AEM translation workflows integrated with GlobalLink by TransPerfect to support multilingual content delivery across 6 locales, improving localisation scalability for 100+ content authors and reducing onboarding effort by about 90% for new languages through configuration driven design.
- GraphQL integration: Built and Integrated GraphQL queries for dynamic content retrieval, enhancing data access efficiency within AEM
- Migration to content centric architecture: Transitioned to content centric architecture with AEM content fragments, improving reuse and flexibility; created over 15 content fragment models
- Cypress automation for authoring: Implemented Cypress automation for authoring pages and content fragments , increased the coverage from 60% to 95%
